Tehran

Profile

My name is Ali, and I've been learning front-end programming for about 9 months. During this time, I have studied HTML & CSS, Tailwind CSS, basic JavaScript, React and familiarity with TypeScript and Next.js. I have also worked on several practice projects to apply and reinforce my learning. If you are seeking a dedicated individual passionate about continuous learning and diligent work ethic, I am very pleased and eager to have the opportunity to work with you."

my Experience

TMDB Movie

I designed and developed a React-based practice project resembling the TMDB Movie website

challenges:

use Redux toolkit for state management

use Swr for api

use formik and yup for form management

use Tailwind css, Headless ui, and daisy ui

<https://github.com/ali-sheikhalizadeh/tmdb-movie-practice>
